

# Red Flags for Children's Mental Health

Tuesday, May 4, 2010  
7:00—9:00 p.m.

The Cottage Children's Center  
197 Union Street, Marlborough, MA  
Fee: \$25

It is often difficult to assess emotional and behavioral issues of young children.

What falls within the bounds of "normal" behavior?

What are some behaviors that are indicative of mental health disorders in children?

Examine **distinguishing factors** to use when deciding if a child and family should be referred for mental health services, how to **make a plan**, and **what to do next**.

Discussion will include **stressors** that particularly affect young children, **fostering resilience**, and what can be put into place at your program to **decrease vulnerabilities** in children.

*This workshop is part of our comprehensive special needs training topics.*

Bring this workshop directly to your location!
